Compatibility checks

- **Mode:** The test will be completely online and must be taken on a **laptop or desktop**. Mobile phones and tablets are **not supported**.
- **Camera:** An active **desktop camera** or a connected **webcam** IS **MANDATORY** the exam
- **Internet:** Stable connection (minimum 2 Mbps recommended)
- **Browser:** Use the **latest version** of **Google Chrome (preferred for Windows)** or **Safari (preferred for macOS)**.
- **Sample test:** Make sure to attempt the **sample test** shared earlier to check for any compatibility issues in advance.

- **Disable** any **pop-up blockers**, avoid **incognito mode**, and ensure a **stable internet connection**.

IMPORTANT INSTRUCTIONS:

1. Please make sure to attempt the **sample test** shared in the previous email. This is essential to verify that your system (laptop or desktop) is fully compatible with the test environment.
***Note:** Skipping the sample test may result in unexpected compatibility issues arising during the actual exam which we won't be liable to provide additional time for.*
2. If you face any technical issues during the actual test, you can report them by emailing exam-support@scaler.com. However, unless the issue is due to a technical error on our end, **we will not be responsible for any time lost** during your test.
3. Please ensure your availability in the assigned slot, you will NOT be allowed to participate in this test in any other slot other than the one assigned.
4. If you join late but before end time, you can STILL attempt the test but you will only receive time till your slot end time.

For example, if your slot time is between 9-10am, and if you join at 9:30am, you can attempt the test only until 10am, after which it will automatically submit based on your previous responses.

5. You **WONT** be able to attempt the test after your test end time has passed.
6. In case of any doubts or issues, please email exam-support@scaler.com for support.

NOTE: DO NOT SHARE THIS LINK WITH ANYONE. With this email, you accept that the Amazon team is liable to disqualify you if your documents fail validation or you are detected using unfair means to attempt this test.

Best of luck!
